RAL colors

Interior and exterior applications | volume 10

A GREENER FINISH.
FOR A BETTER WORLD.

Austrian version doesn’t show caption below or TIGER logo.
Disclaimer
RAL color swatches featured in this color chart have been matched to color standards at a 60-degree visual angle under a D65 Daylight primary source. The swatches are to be considered as an indication only. In practice, discrepancy between the color swatch and the actual powder coating may arise. This is due to paper and ink limitations, the influence of light and heat during the color chart production, as well as gloss level, substrate, surface variations, binder systems and pigments, curing thickness and cure conditions used during application. For an accurate color and finish assessment, it is recommended to obtain a powder coated sample panel from TIGER Drylac®.
